Northstar Insurance Group plc - Q2 2026 Financial Brief

Northstar Insurance Group plc provides commercial property, casualty, and specialty insurance.

For Q2 2026, gross written premiums were $2.18 billion, up from $1.94 billion in Q2 2025. Net earned premiums were $1.63 billion, compared with $1.48 billion.

Underwriting income was $146 million, compared with $118 million in the prior-year quarter. Investment income was $121 million, compared with $104 million.

The consolidated combined ratio improved to 92.4% from 94.8%. The loss ratio was 61.7%, while the expense ratio was 30.7%.

Catastrophe losses were $74 million, compared with $91 million in Q2 2025. Excluding catastrophe losses, the underlying loss ratio was 57.2%.

Cash and short-term investments were $3.42 billion at June 30, 2026. Shareholders' equity was $5.08 billion.

Management expects premium growth to remain in the high-single digits for the remainder of 2026, subject to catastrophe activity and pricing conditions.
