Vertex Industrial Automation Corp. - Q2 2026 Financial Brief

Vertex Industrial Automation Corp. supplies industrial robotics, machine-vision systems, and factory automation software.

Q2 2026 revenue was $735 million, compared with $660 million in Q2 2025. Software and recurring services revenue was $214 million, up from $168 million.

Hardware revenue was $521 million, compared with $492 million in the prior-year quarter. Gross profit was $294 million, producing a gross margin of 40.0%.

Operating income was $91 million, compared with $73 million. Research and development expense was $82 million, up from $69 million.

The company ended the quarter with $410 million of cash and $680 million of total debt. Capital expenditures were $44 million.

Management expects full-year 2026 revenue of $2.95 billion to $3.05 billion. It expects software and recurring services revenue to grow faster than hardware revenue.

Key risks include customer capital-spending cycles, semiconductor availability, foreign-exchange movements, and competition from lower-cost automation vendors.
